» Push beyond just e-mail!

- Eliminate the need for a laptop
- Access and organize files and folders stored on the company network
- Print, fax or present documents on a computer or projector screen
- Increase flexibility and always have up-to-date information available while mobile
- Turn a BlackBerry® smartphone into a complete workstation

The Power of Mobility
for Small Businesses

» Small Business Highlights:

- Special SMB offer for up to 30 users
- Priced to complement BlackBerry Professional Software®
- Easy installation
- Designed for quick, seamless integration with BlackBerry Professional Software or BlackBerry Enterprise Server®

CORTADO

The Business Class of Mobile Services

» ENTERPRISE SOLUTIONS

Feature Highlights:

- **File Access:** Access, view, and manage files stored on a corporate drive using a BlackBerry smartphone. Organize files and folders via the cut, copy, paste, rename, create and delete functions. Save files directly to a network drive with "Save As," and retrieve files from the network with "Send as e-mail."
- **Print:** Print any document, in original format, to any Bluetooth®-enabled or network printer or use the Push Print function to print automatically.
- **Fax:** Send and create faxes. Send any document to a fax machine or use the short fax template to create faxes quickly.
- **Present-to-Screen:** Use the Present-to-Screen function to present or view documents from a BlackBerry smartphone on a computer screen or projector

Save with Cortado Corporate Server Professional!

- Increase tasks done on a BlackBerry smartphone from 60% to 90%
- TCO is valued at a low \$363.00/user/year without considering savings
- Considering savings value, Cortado's net TCO is negative \$349.00/user/year
- High ROI

» Cortado Corporate Server Professional pays for itself in as little as 19 days!

Increased Productivity

- Shorten turnaround times and react quicker – regardless of location
- Respond instantly to e-mails that require information from a company network
- Access updated documents from a company network with the option to print and fax
- Streamline workflow and processes by including mobile technology
- Increase overall company efficiency through mobile workflow

Save Costs

- Mobile device infrastructure is less expensive to acquire and maintain than traditional desktops
- IT administration is simplified by introducing centralized mobile technology
- Lost laptops mean possible security breaches while mobile devices can be wiped remotely
- IT savings can be used towards other company needs
- Cut transportation costs, travel smarter, and make more efficient use of time on the road
