

## Atlantic Technology Group Solutions Series

### Hosted Exchange...and more

## Reliable Email Hosting

Atlantic Technology Group reliably hosts and manages your email communications so you can focus on growing your business. Our Exchange hosting enables companies of all sizes to have flexible, easy-to-use, business-class messaging, as well as collaboration and group scheduling. Featuring 24/7 live telephone support and a 99.99% uptime guarantee, ATG provides the tools you need for reliable company email and collaboration.

## Synchronize Your Mobile Phone

Staying connected is critical in today's competitive business landscape, and Exchange email lets you "take the office with you." ATG's mobile email services enable your employees to send and receive email via their mobile devices—quickly and easily synchronizing Outlook email, contacts, calendars, tasks, and notes. Whether on a remote business trip or across town visiting a customer, ATG empowers your team with immediate, business-critical, mobile email services.

## Spam & Virus Protection

The less you have to worry about security, the more work your company can get done. Let ATG's email security tools help fight the day-to-day battles against spam and viruses. We offer MX Logic® Ultimate Defense as an optional add-on to your Exchange service, providing complete email security at the network perimeter (positioned between the Internet and the Exchange server). MX Logic Ultimate Defense protects your email with a combination of proven spam filters, leading anti-virus engines, content and attachment emailing, filtering, and fraud detectors.

## Shared Calendars & Scheduling

With new, advanced information sharing and meeting scheduling tools, you can easily and efficiently connect with others. Share calendars, contact lists, tasks, and other information with colleagues, and request to see recipient information at the same time.

## Contact Management

Keep your contacts synchronized between your desktop and your mobile device, no matter where you are. Add contacts on the go and they are immediately synchronized to your desktop. Share and sync important company contacts with anyone.

## Understanding ATG's Hosted Exchange Solution

Microsoft Exchange Server is the most popular messaging and collaboration server in the world. It powers all those wonderful e-mail and information-sharing features in Microsoft Outlook and other e-mail clients. With ATG, business users can enjoy advanced, synchronized communications without the hassles and headaches of maintaining their own Microsoft Exchange Server.

### Microsoft Exchange serves two purposes:

**Mail Server.** Exchange supports POP, IMAP, and web e-mail clients, as well as Microsoft Outlook and Microsoft Entourage.

**Collaboration server.** Exchange allows users to share information, either using Outlook on their desktops or Outlook Web Access through a Web browser. It enables Outlook's most important features for collaboration - public folders, calendars for scheduling meetings or reserving resources, common address books for sharing contact information, and much more.

### What your Business Needs:

#### Collaboration without Complexity

If you require collaboration, Exchange Server with Outlook client is your best option. Unfortunately, an in-house installation of an Exchange Server is cost prohibitive and too complex for most companies. A large investment is required for hardware, and the knowledgeable IT personnel to support it.

### The Solution:

#### ATG Exchange Hosting

Up until a few years ago, small and medium companies had few options for enabling business messaging for their organization. Now, with ATG Exchange Hosting, any organization can take advantage of the same tools and benefits previously reserved for large enterprises. For a low monthly fee, you can reap the benefits of Exchange for comprehensive messaging and collaboration, in an enterprise-class infrastructure with guaranteed service levels.
